NOTICE OF FILING OF MASTER'S REPORT

This Master's Report was filed with the Montana Water Court on the above stamped date. Please review this report carefully.

You may file a written objection to this Master's Report within **10 days** of the stamped date if you disagree or find errors with the Master's findings of fact, conclusions of law, or recommendations. Rule 23, W.R.Adj.R. If the Master's Report was mailed to you, the Montana Rules of Civil Procedure allow an additional 3 days to be added to the 10-day objection period. Rule 6(d), M.R.Civ.P. If you file an objection, you must mail a copy of the objection to all parties on the service list found at the end of the Master's Report. The original objection and a certificate of mailing to all parties on the service list must be filed with the Water Court.

If you do not file a timely objection, the Water Court will conclude that you agree with the content of this Master's Report.

MASTER'S REPORT

Each of these Crazy Not To LLC claims appeared in the Preliminary Decree with the following issue remark:

THE FLOW RATE IS MISSING.

The issue remarks were not addressed through the objection process. The Water Court is required to resolve the issues raised by each issue remark. Section 85-2-248, MCA.

Under Section 85-2-248(3), MCA, information in the claim file or other information obtained by the Court can be reviewed to determine if it provides a sufficient basis to resolve the issue raised by a remark and the Court can provide the claimant an opportunity to file additional information or evidence. On April 6, 2023 Crazy Not To LLC's Status Report And Unopposed Request For Extension And Motion To Amend Water Right 43B 111467-00 And Supporting Brief ["April 6, 2023 Motion"] was filed. This is a motion to amend filed pursuant to section 85-2-233(6), MCA, for which analysis is required to determine if additional notice is needed. On June 6, 2023 Crazy Not To LLC's Motion To Amend Water Right Claims To Resolve DNRC Issue Remarks ["June 2, 2023 Motion"] was filed. For the requested changes to source type, this also is a motion to amend filed pursuant to section 85-2-233(6), MCA, for which analysis is required to determine if additional notice is needed. These documents are viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

"All issue remarks to claims that are not resolved through the filing of an objection as provided in 85-2-233 must be resolved as provided in this section." Section 85-2-248(2), MCA.

The Montana Water Court has jurisdiction to review a motion to amend pursuant to section 85-2-233(6), MCA.

Rule 15 M.R.Civ.P. restricts the scope of the amendments to the conduct, transaction, or occurrence set forth in the original pleading or, in other words, the "same set of operative facts as contained in the original pleading." *Sooy v. Petrolane Steel Gas, Inc.*, 218 Mont. 418, 422-423 (1985). The requested amendment "merely makes more specific that which has already been alleged." *Prentice Lumber Company v. Hukill*, 161 Mont. 8, 15 (1972).

Notice must be published by newspaper if the requested amendments "may adversely affect other water rights." Section 85-2-233(6)(a)(i), MCA.

Pursuant to Rule 60(a), M.R.Civ.P., the Court may correct clerical mistakes at any time on its own initiative.

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including claimants amending their own claims. Rule 19, W.R.Adj.R.

FINDINGS OF FACT

1. For each of claims 43B 111462-00, 43B 111463-00, 43B 111464-00, 43B 111469-00, 43B 111472-00, 43B 111473-00, 43B 111474-00, 43B 111475-00, and 43B 111478-00, the Preliminary Decree is blank at the flow rate entry. For each, the flow rate should be the following standard remark:

A SPECIFIC FLOW RATE HAS NOT BEEN DECREED BECAUSE THIS USE CONSISTS OF STOCK DRINKING DIRECTLY FROM THE SOURCE, OR FROM A DITCH SYSTEM. THE FLOW RATE IS LIMITED TO THE MINIMUM AMOUNT HISTORICALLY NECESSARY TO SUSTAIN THIS PURPOSE.

The source type change for each of these claims requested in the June 6, 2023 Motion arises out of the same conduct, transaction, or occurrence specified on each original Statement of Claim, is based on the same operative facts specified in each original Statement of Claim, and merely makes more specific that which was already claimed on each original Statement of Claim.

For each of these claims, the Preliminary Decree states that the source type is GROUNDWATER. The source type for each of these claims should be SURFACE WATER.

2. For each of claims 43B 111466-00, 43B 111468-00, 43B 111470-00, and 43B 111471-00, the flow rate should be 10.00 GPM as specified on each Statement of Claim and as confirmed in the June 2, 2023 Motion. The flow rate issue remark should be removed as addressed and resolved.

In addition, the Preliminary Decree states the type of historical right for claims 43B 111466-00, and 43B 111471-00 is USE. The Statement of Claim for each states the type is FILED and a copy of the Notice Of Completion Of Groundwater Appropriation Without Well is

attached to each Statement of Claim. The type was erroneously changed to USE when the claims were first keypunched into the database. These clerical errors should be fixed. For both claims, the type of historical right should be FILED.

3. For 43B 111467-00, the flow rate should be 10.00 GPM as specified on the Statement of Claim and as confirmed in the June 2, 2023 Motion. The flow rate issue remark should be removed as addressed and resolved.

In addition, the Preliminary Decree states the type of historical right is USE. The Statement of Claim states the type is FILED and a copy of the Notice Of Completion Of Groundwater Appropriation Without Well is attached to the Statement of Claim. The type was erroneously changed to USE when the claim was first keypunched into the database. This clerical error should be fixed. The type of historical right should be FILED.

The place of use legal description change requested in the April 6, 2023 Motion arises out of the same conduct, transaction, or occurrence specified on the original Statement of Claim, is based on the same operative facts specified in the original Statement of Claim, and merely makes more specific that which was already claimed on the original Statement of Claim.

The Preliminary Decree states that the place of use legal description is the SWSWNW section 33, T2N, R15E, SWEET GRASS. The legal description should be the SWSWNW section 33, T3N, R15E, SWEET GRASS.

CONCLUSION OF LAW

1. For the motion to amend the source type for claims 43B 111462-00, 43B 111463-00, 43B 111464-00, 43B 111469-00, 43B 111472-00, 43B 111473-00, 43B 111474-00, 43B 111475-00, and 43B 111478-00, and the motion to amend the place of use for claim 43B 111467-00, the requested amendments do not adversely affect other water rights as they are corrections to the abstracts which do not make any changes to the actual historical use of the claimed rights on the ground. Notice by publication of these amendments is not required. Section 85-2-233(6), MCA.

2. Each of the requested amendments “merely makes more specific that which has already been alleged.” *Prentice Lumber Company v. Hukill*, 161 Mont. 8, 15 (1972).

3. The settlement, including the motions to amend, is sufficient to contradict and overcome the prima facie claims as they appeared in the Preliminary Decree and sufficient to

resolve the issue remarks without evidentiary hearing. Sections 85-2-248(3) and (11), MCA.

RECOMMENDATIONS

Based upon the above, this Master recommends that the Court grant the motions to amend these claims and make the changes specified in the Findings of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim for each claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
